**“COMMITTED TO OUR CUSTOMERS SUCCESS”**

**Mission Statement:**

To provide contemporary energy solutions to our contractors and their customers. To achieve this mission we will offer the highest possible level of expertise available on only a select number of products hand picked by Coastal Winair. We will take pride in our personal approach to customer service and product knowledge and we will accomplish this mission with both integrity and fairness.

Coastal Winair is an independently owned, Wholesale distributor of high efficient heating and cooling system parts and supplies. Coastal Winair is an HVAC wholesaler that specializes in assisting with the design and distribution of innovative energy efficient heating and cooling systems. We serve Southern and Central Maine as a leading provider of high efficiency heating and air conditioning systems including geothermal heat pumps, thermal solar DHW, as well as conventional, high velocity and mini-split air source heat-pump systems. We are an equity partner of Winsupply Inc. as participants in this unique “Winsupply” business model, Coastal Winair is able to provide a wide range of offerings and superior service for both the residential and commercial contractor.
